Date: 03 September 2020

Dear Matthew,

re: Insurances – IFC Certification Ltd, International Fire Consultants Ltd

Following on from your request regarding the additional detail regarding your Professional Indemnity Insurance, we are writing to confirm that there are no specific limitations other than the declared contract for the Palace of Westminster and work in respect of the USA & Canada.

The primary £2m Hiscox Policy states that your activities are declared as:

- Fire Engineering Consultancy
- Quality/Manufacturing Certification
- Training Services
- Project Management of Fire Testing

They further acknowledge that you offer being Expert Witnesses as a service and it should be understood that the excess layers of coverage follow the primary.

There is nothing that I am currently aware of that should concern your customers in respect of the arranged covers.

Regards,

Peter L Sutcliffe - Director
